ABOUT US - HISTORY

SINCE 2010:
ACL managed Asian credit portfolios and private equity portfolios for corporate clients with a focus in the global healthcare sector.

SINCE 2017:
ACL has further expanded capabilities to engage in other regulated activities including dealing and advising in securities, private placements and capital raising for early stage growth companies, as well as investment and operational fund management services.

2005:
Aeneas Capital Limited (“ACL”) (CE No. AMB389), founded as an Asset Manager licensed by the SFC in Hong Kong.
- Investment management services to multi-family offices and UHNW individuals.
- Cross-asset and multi-strategy exposures: Hedge funds, equities, derivatives, and currencies.
- Weathered the Great Financial Crisis (GFC) delivering positive annual returns across flagship funds.

2018:
The broader group, Aeneas Group (“AGL”) expanding its business segments in terms of scope and across multiple jurisdictions:
- Investment banking, brokerage dealing, health care real estate, and technology driven services for financial and medical use cases.
- ACL assets under management over US$600 million

2019:
Aeneas Capital LLC (SEC#: 8-70161) successfully granted broker/dealer license under FINRA.

Aenco Solutions ("Aenco"), a wholly owned subsidiary of Aeneas Group, is a blockchain technology and applications development company. Working closely with the healthcare expert network of Aeneas’ sister group company, Aptorum Group Limited, Aenco is building a vibrant ecosystem encompassing and for “business” partners. Aenco is building its own permission-based blockchain to support customizable business applications, financial transactions, and healthcare technology innovation.
Current Challenges to Blockchain Development Being Solved by Aenco

PROBLEMS TO SOLVE

- Single Point of Failure
- Single Transaction Pool (POS/POW)
- Wasted Space
- User Confusion and Uptake

SOLUTIONS IN PROGRESS

- Distributed Access
- Target Execution
- Decay
- Trinity

Creating a healthtech ledger ecosystem to address all these challenges in one blockchain!
KEY FEATURES OF THE AENCO BLOCKCHAIN:

- Know-Your-Business filtering
- Multi-sharding / Multi-mining
- "Proof of iii" Consensus Algorithm
- Decay Principle
- Permission Based Master-node
- 512 bit SHA3 based hash function
- Competitive Transaction Speed 4,000+ tx per sec
- API Gateway for customizable business blockchains

BLOCKCHAIN APPLICATIONS DEVELOPMENT [III]

Our clients are investors who understand the value of true financial partnership and we work with you to identify priorities that are important to you and unique to your circumstances.

Together, we develop a step-by-step, long-term strategy that we will monitor and adjust to ensure that the plan consistently reflects your goals.

Our global network of professional partners from fund managers, capital market advisors, legal advisors, fund administrator services, operations and risk control specialists.
WEALTH MANAGEMENT SOLUTIONS [II]

Our platform grants you bespoke solutions and access to hundreds of investment-linked and financial protection products!

EXAMPLE:
Universal Life Insurance (Education)

Coverage & Protection

Returns and benefits:
- Potential returns for child’s education fund, with crediting interest rate
- Loyalty bonus upon policy maturity
- Flexibility in increasing or decreasing the sum insured
- Choose to pay the planned premium periodically (monthly / annually), lump sum, or in an unscheduled option

Protection:
- Life protection – in unfortunate event of the insured party’s death
- Payor’s benefit – in events of disability or death
- Terminal illness benefits – in event the insured party is diagnosed with terminal illness

Important Notes:
i. The illustrative example is for reference only and the graph is not shown in scale.
ii. The example is illustrated based on the assumption that the Policy is bought to cover the life of a male non-smoker, with Insurance Age 5, who has chosen a 5-year premium payment period. It also assumes that there is no change to the Policy after inception.
iii. The Account Value under the Guaranteed Basis may not be able to cover the applicable policy fees and charges. If the Account Value drops to zero or less, the Policy may lapse.
iv. Actual Account Value and Death Benefit vary case by case depending on the prevailing General Crediting Interest Rate and applicable policy charges. The actual future Account Value may be lower or higher than that illustrated above.
WEALTH MANAGEMENT SOLUTIONS [III]

- One-Stop-Shop access to your wealth management and insurance product solutions
- Bespoke solutions and servicing based on client requirements and constraints

**Business Partners**
- Zurich
- AXA
- Sun Life Financial
- FTLife

**Product Platforms**
- Old Mutual
- Chubb
- Liberty Insurance
- Generali
- Mass Mutual Financial Group
- Friends Provident International
- BUPA International
- Tahoe
- Schroders
- Blackrock
- Aberdeen
- Value Partners
- Fidelity
- Pimco
- Investco
- Barings
- Franklin Templeton Investments
- First State Investments
- Investec
- Allianz
Example #1: Benefits of Savings Plans

**Certainty for Future Income**
- Fixed Income (25% - 50%)
- Equity (50% - 75%)

**Stable Asset Growth**
- Sample Portfolio Allocation
- Maximum protection period
- Up to 128th birthday of the insured
- Generate lifetime income for policy owner
- Option to transfer title of insured
- Option to transfer account values to designees in specified future date
- Achieve estate planning goals!

**Lifelong Income & Transferable Savings Value**
- Option to transfer account values to designees in specified future date
- Achieve estate planning goals!

**Inherit Insurance Coverage and Wealth Across Generations**
- Unlimited number of changes to the insured person (after 1st policy anniversary)
- Upon change to the insured: Policy term renews protection until the newly insured reaches the age of 128

**Flexible Settlement Options for Death Claims**
- LUMP-SUM PAYMENT
  - In 10/20/30 years, receive annually, semi-annually, or monthly
  - Benefit not yet paid will be accumulated with interest at a rate of 2% p.a. (non-guaranteed)
- REGULAR PAYMENTS
  - Remainder of Death Benefit paid in regular payments

(i) Alternative to traditional TRUSTS; and (ii) See example on P.31 Wealth Management Solutions [V]
Example: Wealth Generation and Insurance Inheritance Across Generations (Option to transfer policy ownership and title of insured)

Starting from age 65, Mr Chan withdraws USD 300,000 per year for 20 years as his retirement fund (total withdraw: USD6M)

Mr. Chan is returned 6x on his investment principal for his retirement fund

Starting from age 65, the son of Mr Chan withdraws USD 300,000 per year for 20 years as his retirement fund (total withdraw: USD6M)

Mr. Chan’s son is also returned 6x on the original principal for his retirement fund following Mr. Chan

The grandson of Mr Chan (current policy owner) will receive USD 56M maturity benefit upon the maturity of the policy (the initial insured’s 128th birthday)
Example #2: Investment-Linked Plans (highlight features)

- Combines insurance policy and tax for estate planning
  - No need to go through probate upon death claim
  - Use policy value to settle estate duties (if any)

- Platform for investment and protection
  - Death benefit = the higher of (i) Guaranteed capital; or (ii) 105% of Net Asset Value

- Gearing up principal for return enhancement
  - Welcome bonus of up to 100% on 1st year premium

- Extensive options for securities and funds to build investment portfolio
  - Bond platform (e.g. AXA Evolution; Old Mutual EIP)
  - Over 600 SFC licensed funds with global exposure

- No switching costs within platform (fund switching etc.)
  - Free switches ranging from 10 times per year to unlimited versus traditional switching fees of 1.5% - 3%

- Simple alternative to traditional Trusts

- Flexibility in value withdrawal
